PROFILE SUMMARY

Aspiring Java Full Stack Developer with strong knowledge of Java, Spring Boot, React.js, SQL, and AWS. Completed a 8-month internship, gaining hands-on experience in web application development, database management, REST API integration and contributing to high-quality software solutions

TECHNICAL SKILLS

- **Programming:** Java, JavaScript, SQL
- **Frontend:** React.js, HTML, CSS
- **Backend & Security:** SpringBoot, SpringSecurity, JWT, Hibernate, JDBC, Servlets
- **Databases:** MySQL, PostgreSQL
- **Cloud & Tools:** AWS, Docker, Git, GitHub
- **Core Concepts:** OOP, DSA, DBMS, Operating Systems

TECHNICAL EXPERIENCE

Java Full Stack Developer Trainee — JSpiders

8 Months

Completed a 8-month internship, gaining hands-on experience in web application development, database management, REST API integration, and software development best practices. Passionate about building scalable applications and contributing to high-quality software solutions.

TECHNICAL PROJECTS

Developed an AI-Powered Service Desk Application | *Spring Boot, React.js, JavaScript, MySQL, Ollama (LLM)* | [Code](#)

Developed a full-stack AI-powered service desk application to streamline IT support operations. Implemented secure REST APIs using Spring Boot with JWT-based authentication and role-based access control for Admin and User modules. Built a responsive React.js frontend for ticket creation, tracking, and knowledge base search. Integrated Ollama LLM to provide AI-driven troubleshooting suggestions and automate issue resolution. Designed MySQL database schemas for users, tickets, categories, and service requests using Spring Data JPA. Implemented ticket lifecycle management, status updates, priority handling, and dashboard analytics to improve support efficiency.

Book My Ticket | *Java, Spring Boot, React.js, MySQL* | [Code](#) Developed a full-stack ticket booking application using Java, Spring Boot, React.js, and MySQL. Implemented user authentication, REST APIs, and booking management features. Designed a responsive UI for seamless ticket booking and management.

Brick Breaker Game | *Java, Swing, AWT, OOP* | [Code](#)

Developed a 2D interactive Brick Breaker game using Java Swing with real-time rendering and smooth animation. Implemented collision detection and event-driven controls using KeyListener. Designed scoring logic and game state management for responsive gameplay.

Developed a console-based ATM system | *Java, Hibernate, MySQL, OOP* | [Code](#)

Engineered a console-based ATM system supporting deposit, withdrawal, and transaction history. Leveraged Hibernate ORM for efficient data persistence. Designed normalized MySQL schema ensuring transactional consistency.

EDUCATION

Bachelor of Engineering (B.E.)

KLE College of Engineering & Technology chikodi, Belagavi

2026

ACHIEVEMENTS AND CERTIFICATIONS

3-Time National-Level Robotics Competition Winner — Buildathon Participant — Certified in Java Full Stack Development and AWS (JSpiders). Developed multiple full-stack projects using Java, Spring Boot, React.js, MySQL, and AWS.
